

Exercise is Medicine Europe (EIEIM)

8th Annual Meeting **Amsterdam, The Netherlands**

CONFERENCE TOPIC: HEALTHY ACTIVE AGEING

© Annetje van Praag

September 20th & 21st 2019
at OBA, next to Central Railway Station

Attend the 8th annual Exercise is Medicine Europe (EIEIM) at the Amsterdam Public Library (OBA).

The European 'Exercise is Medicine' (EIEIM) campaign aims to integrate physical activity and exercise into European healthcare with the ultimate goal to encourage a healthy lifestyle among all Europeans. Exercise is Medicine® (EIM) is a global initiative! Launched by the American College of Sports Medicine in 2007, EIM now has a presence in numerous countries around the globe.

The Annual Meeting is for all professionals. We are planning an exciting programme with acknowledged international experts. We will seek European UEMS accreditation for this meeting (see for info: <https://www.uems.eu/areas-of-expertise/cme-cpd/eaccme>).
